SHOES, BOOTS AND GAITERS.

A very Extensive Supply.
IN offering this stock of goods to the inhabitants of Newport and vicinity, I am aware that the satisfaction of making a good bargain is incomplete—it is not realized when the purchaser does not know that he is receiving for his money the very best return. To give in this case full assurance, I will say, that whilst the above goods are too valuable to allow of being purchased at low prices than other goods in market, I will notwithstanding, sell them at such prices as cannot fail to secure a continuance of that custom which I already have so largely and so liberally received.

TIGHT LACING.—Physicians are writing volumes on the evils of tight lacing, and publishing diagrams to show how the human frame may be screwed up, to the utmost danger of lungs and respiration. But we have a more practical development of the evil in the long life of a female who abhorred tight lacing. Mrs. Charity Berry, of New Jersey, who died lately at the age of 110 years, always abhorred tight lacing. She had thirteen children, all of whom yet live, and she was remarkable for her opposition to this practice. Fashion kills more of her votaries, than cold climates or damp locations, than the Torrid Zone or even Pandora's Box. From the year 1795 to 1800, tight lacing was entirely abandoned; but it came up again, and has since been gradually increasing, until consumption has become a kind of epidemic. Those ladies who are ambitious to live until the age of 110, like Mrs. Berry, should cut away the stony lace, breath free, and shout *Vive la Liberte*.

WORTHY OF IMITATION.—The annual collection in the Mercer Street Church, New York, a week ago last Sunday, amounted to about \$3,000. Were the nearly three thousand churches connected with this Board, to follow this example of liberality, its debt of \$60,000 would soon be cancelled, and its five hundred missionary laborers sustained without embarrassment in their self-denying work.

THE DAILY NEWS.

Newport:

FRIDAY MAY 3, 1847.

BY G. F. JACKSON, 91-THAMES-ST.

Advertisers will please bear in mind that the circulation of the DAILY NEWS is more than DOUBLE that of the Daily Herald, and greater than the combined circulation of the Daily and Weekly Herald. As one proof of this fact, the list of letters remaining in the Post-Office is advertised in the NEWS, as BY LAW REQUIRED.

The Senate has passed a resolution discontinuing the June session and favoring an adjournment to October as provided for by the constitution. The House, however, have not as yet acted on the resolution, but we are very much inclined to the opinion that the house will refuse to concur with the Senate, and the latter body still persists in their vote; a committee of conference, from the two Houses, will be appointed to adjust the difference. We hope the June session will not be dispensed with, for we are satisfied that if every one will examine the schedules of the various sessions, for several years past, they will find that there is nearly, if not quite as much business transacted at the May and June sessions, each of only a few days, as at the January session of four or five weeks. At these short sessions, the Legislature transact their business at once, and without useless delay; at the long session the farmers have nothing to call them, and they rather prefer to pass a few weeks amid the gayety and fashion of the city, at the expense of the State. They meet on Tuesday and adjourn Friday afternoon over to Tuesday again; and then the members have long speeches to make, as each one has something to say, in order that their respective candidates may see that they are attentive to their duty, and on the look out for their welfare, as the wise guardians of the Constitution and laws of the State. We think it would be of decided advantage for newspapers to report nothing but the simple business done, leaving out all speeches that are made, and everything that is said by any one on the matters before the Legislature.

We are in favor of the June session because we know that it is a working, business session, when the members come together to work in earnest. If any session is to be abolished, it would be wiser and more economical to dispense with the January session, than any other; but that session is provided for in the constitution, and, therefore, cannot be abolished. But if the June session is dispensed with, it must necessarily lengthen the January session, and the business which is now transacted here in four or five days, would occupy at least three weeks, in mid winter, when the farmers are at leisure, and prefer to be in the city, as we before said.

MEXICAN BONDS.—From the Star of the 4th ult., we learn that how ruinous a sacrifice the Mexican government extorted itself from the hands of Manning & Mackintosh. We quote:—

"The \$5,000,000 Mexican bonds, which the house of Manning & Mackintosh expected to receive in discharge of their loan of \$600,000 to Santa Anna—who at the time was at the head of the supreme government—have been disposed of at one million one hundred thousand dollars. The purchaser is Senator Berstegan. He pays \$600,000 in cash, \$10,000 in instalments, and \$400,000 in bonds. The latter may possibly be had for \$500,000 which will bring the whole cost of the bonds recently advertised for sale at \$750,000."

FARE REDUCED.—The steamer Perry has reduced her fare to Providence to fifty cents, the usual summer price.

If the Perry was on the North River she would "hurry up" some of the "crack" boats there, or else pass them. She made a trip to Providence one day last week in about an hour and twenty minutes, a distance of thirty miles.

GREAT FIRE IN TROY, N. Y.—The Albany Knickerbocker says that on Monday evening a fire broke out in the stables of Mechanic's Hall on River street. It spread with great rapidity and the adjacent buildings were soon wrapped in flames. On the east side of River street not a building was left standing. It crossed River street and swept everything to the corner of Ferry street. About 30 houses were burnt, and the loss is estimated at \$150,000.

RHODE ISLAND LEGISLATURE. FIRST SESSION.

Thursday morning.

The House met at 10 o'clock, pursuant to adjournment.

The record of the previous days' proceedings was approved.

On motion of Mr. Ames, of Providence, Mr. Borden, of Tiverton, was excused from further attendance on the House, at the present session, in consequence of a severe domestic affliction.

Several resolutions from various States in the Union, in regard to the Tariff, the Mexican War, annexation of further territory, &c., &c., were read and referred to a special committee consisting of Messrs. Cranston, Whipple and Tourtellott.

A bill in regard to the harbor of Providence, and authorizing the City Council of Providence, to allow rails to be laid from the Depots in the Cove, along the streets and highways of the city, was taken up and debated at great length by Messrs. Ames, Hadden, Arnold, Angell, Tourtellott, Wenden, Brown, Gavit, Dixon, and others, and finally passed.

Mr. Porter, of Cranston, introduced a series of resolutions congratulating the French people on their recent successful revolution, which were referred to a select committee of one from each County, consisting of Messrs. Cranston, Ames, Rosworth, Allan, Gavit. Mr. Whipple, of Coventry, introduced a series of resolutions in regard to the existence of Slavery in the District of Columbia, instructing our Senators and requesting our Representatives in Congress to urge their respective Houses, the importance of abolishing slavery in the District, or of removing the Capitol to some of the free States, which were referred to a select committee of one from each County.

Several petitions were received and referred to the appropriate Committees.

Petition of N. M. Wheaton, et al., praying for a reduction of tolls on Kelley's Bridge, was referred to a special committee who are authorized to send for persons and papers.

Petition of Mary McAndrew, for liberty to hold Real Estate, was granted and acted upon.

Mr. Cranston introduced a resolution authorizing Daniel C. Denham to procure new cases for the office of the Clerk of the Court of Common Pleas for the County of Newport.

Petitions of Catherine D. W. Dodge and Leonard C. Marble, for Divorce, were continued with an order of notice.

The House then adjourned to 3 o'clock.

Thursday afternoon.

The House met at 3 o'clock, pursuant to adjournment.

Petition of Henry A. Sutton, et al., for liberty to take oysters in Narragansett Bay, granted and acted upon.

Petition of Israel G. Manchester, Administrator, to mortgage real estate, granted and acted upon.

The Bill remodelling the Court of Common Pleas was taken up. This act abolishes the associate Justices in these Courts, and provides that the Judges of the Supreme Court shall assign one of their number to hold the Courts of Common Pleas, for a given period, and that he shall be relieved from duty in the Supreme Court during such time. It also confines all cases, where the amount in dispute is not over one hundred dollars, to the Courts of Common Pleas, except where questions of title to real estate are in controversy. After a lengthy debate, the bill was adopted. The last section of the act provides that it shall go into operation immediately.

The bill in regard to the Supreme Court was next taken up; this provides that motions, in certain cases, may be made and heard in either of the counties, or before a Judge in vacation. It also provides for the appointment of a Master in Chancery in each County. The Bill makes the salary of the Chief Justice nine hundred dollars, and the associate Judges five hundred and fifty dollars per year; and the clerks, and other fees now received by the associate Judges of the Courts of Common Pleas, are to be divided equally among them.

After a long debate, the Bill was passed. Sundry concurrences from the Senate were read.

The accounts of Henry Taggart, William Giffin, Daniel C. Denham, and a number of others were allowed and ordered to be paid.

Petition of William N. Hunt, et al., to adopt child, granted and acted upon.

On motion of Mr. Cranston, of Newport, Mr. Mott, of New Shoreham, was excused from further attendance on the House at the present session.

The Petition of the Town of Newport, for a city charter, was taken up and after being read, the House adjourned to Friday morning, at 9 o'clock.

WHAT SHALL BE DONE WITH MR. TRIST.—Some of the papers state that the President is reflecting what mode of punishment he shall visit on Mr. Trist, or whether he shall punish or reward him. This is the extreme of folly. Mr. Trist was appointed commissioner to negotiate a treaty—the Mexicans refuse to make peace or hear his terms—here his mission ended. He would have returned home, as he was recalled by his government, but knowing the vacillating character of the Mexicans, he remained in that country until circumstances compelled them to accept the treaty which had been heretofore rejected, and Mr. Trist, without power, signed a treaty which the Senate subsequently amended and ratified, and the President approved. Having adopted the treaty, the right of Mr. Trist to negotiate one was thus fully recognized. The government must settle his accounts and pay him for his services—and that is the only punishment they can legally inflict upon him. His course and conduct being approved the President, if he pleases, may assign him other employment. If not, his duties have terminated as a public functionary. For our part, we can see nothing to condemn, but everything to applaud, in the conduct of Mr. Trist. In Turkey they would have accepted the treaty and bastinadoed the minister, but the usage of Turkey do not fraternize with our own.—N. Y. Star.

MELANCHOLY AFFAIR.—A most melancholy occurrence took place in this village yesterday afternoon between the hours of 4 and 5. The wife of Mr. Lawdwick Borden, one of our most respectable citizens residing on Second street, took her two youngest children, went down cellar, and drowned them in a cistern; then stepping behind the chimney, cut her own throat with a razor, and died almost instantly. No person was present at the time, the servant girl having just stepped out to draw a pail of water, leaving Mrs. B. with her three youngest children.

One of the children drowned was 6 months old and the other about 3 years.

Mrs. Borden had appeared rather melancholy for a few days past, and it is probable that she committed the lamentable deed in a paroxysm of insanity.—Fall River News of yesterday.

AMERICANS IN EUROPE.—Just at present citizens of Republican America are in high repute among the liberty-desiring inhabitants of Europe. An officer of the steamer Princeton writes from Messina, that the visor of his cap is nearly worn off in returning the salutes of the people, who are in the mood to idolize every body who dates his nativity from the country of the stars and stripes.

TORNADO.—The Hartford Courant publishes a letter from a missionary teacher to the Indians of the Choctaw nation, dated March 23d, giving an account of a terrible tornado which had just visited one of their missionary stations at Pine Ridge, destroying property to the amount of \$3300.—Trees of a century's growth had their trunks wrenched from their roots like so many twigs. The building (a large two-story house,) occupied by Misses Bennett and Slater, teachers connected with the station, and twenty-five girls, pupils, was swept off, save only the lower floor, and parts of it carried to a distance of a mile from the spot. Of the inmates of the house—all of whom were within doors—seven or eight were considerably hurt, but, incredible as it may seem, no lives were lost.

We copy the following that our readers may see what horrid jokes some of the wits get off:

WEST INDIES.—Accounts from Barbadoes and the neighboring islands are very gloomy. Great pecuniary distress prevails among the people. The legislature of St. Vincent had refused to meet an account of their disinclination to impose additional taxes.

In Martinique, April 7, a revolt of the slave population was hourly expected, in consequence of the postponement of their emancipation until the present crop had been reaped.

LIBERTY IN CUBA.—The Captain General of Cuba, Gen. Roskafi, prohibited the sale of the Correo de Ultramar, a Paris paper, which contained the late news of the French revolution, and threatened to banish the agent if he sold any more numbers. He also summoned the French Consul, and told him he had been informed that several Frenchmen had sung the Marseillaise hymn in a private house, and that should any of them sing it again, he would have them banished in twenty-four hours.

COMMERCE.—The Detroit Advertiser states that 1,000,000 barrels of flour and nearly 20,000,000 bushels of wheat were exported from that State last year, besides 1,000,000 lbs. of wool and other products.

It is stated that a host of brevets for gallantry in the Mexican war, have been communicated to the Senate in Executive session, embracing General Kearny and Persifer F. Smith as Major Generals, and Col. Riley as Brigadier General.

Do enable Manhood to Die of Old Age without Disease.—The public may not be aware that the Rev. B. Hibbard's Vegetable Pills are the very best Family Medicine extant; perfectly reliable in every emergency. No one can foresee the moment when they or their children may be attacked. Disease comes like a thief in the night, and in times of peril, anxiety and danger, it is a relief to the mind to have at hand a remedy so certain, prompt, and efficient in warding off as well as curing disease. Ship Fever, Typhus Fever, Congestive and Billious Diseases are rife throughout the land. To travellers, emigrants, soldiers, and families, we say neglect not to provide yourself with so potent a passifier of the blood; so safe, mild, and universal a remedy as these sovereign Vegetable Pills. Remember the name of Rev. B. Hibbard is on the label of each box. All others are spurious. T. R. Hibbard, M. D., 96 John-st., New York, proprietor. See advertisement in another column. mar 22

Mutual Benefit Life Insurance Co.

(Office No 21 Wall-st., N. Y.)

Advantages secured by the System of Life Insurance now in successful operation in this company.

1st. Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.

2d. The premium, if over \$50, can be paid one-fourth in cash, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest, and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.

3d. Annual division of profits in scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash—or the profits can be added to increase the sum insured.

4th. No persons are liable beyond the amount of their premium.

5th. Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.

6th. Creditors may insure their debtors; or debtors themselves, for the protection of creditors.

7th. An insurance can be made so that the sum insured will be paid on attaining a specified age, or sooner in the event of death.

8th. All claims on policies will be paid three months after notice and proof of death.

9th. No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.

10th. No Director or Officer can obtain a loan of the Company.

11th. When the net profits of the Company amount to \$200,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a *pro rata* interest.

12th. The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.

13th. No part of the profits is withheld, or diverted from the assured in any way.

14th. There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.

15th. It enables a man to provide for a wife and children, in such a way, that although he may lose it, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.

16th. It does not reckon the assured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.

17th. It pays no directors, auditors, or solicitors.

18th. A portion of the directors and the officers are chosen yearly, and the members vote according to interest.

19th. The assured can surrender the policy at any time after a term of years, and receive its equitable value.

20th. Every precaution is taken to prevent a forfeiture of policy.

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every Insurance appertaining to or connected with Life risks, of whatever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1815.

The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations and principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of *Mutual Benefit*, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and how much they will be likely to receive. This plan, partakes of the *Savings Bank* and *Mutual Interest*, affording the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law, of creditors.

The greatest portion of society, who by daily exertions in industry earn support, as *artisans and mechanics*, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in *mechanical* pursuits and those in *professional* business of every rank and class, or those who have uncertain or small incomes, and who are not in a position to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

To assist all such, this *Mutual Benefit* society arranges the payment of the premiums, and of returns, in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting them while in life, and providing for their families after their death; in this way a short life may obtain, and leave to their heirs the benefit of a long one.

The Company will grant Insurance on lives, on

the *Mutual principle*, to applicants upon their own lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, of the age of thirty years (and in like proportion for other ages), by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the *Savings Bank*, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved.

Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Parties insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out, or residing out, of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the *certainty of the general laws that regulate its duration*, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the human duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and dying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

It was found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducting the mean duration; and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years, 38 years more; and of 40 years 28 years longer; then by the tables of rates, the first has to pay \$20 40-100 a year during his life, to secure, \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefit, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefit, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a *Mutual Benefit* Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management.

Founded on scientific principles, exemplified by experience, its real services, then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such, in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the educated and dependent lives of children; for what is the situation of a man, who, for the gratification of his affection,

surrounds himself with a wife and child, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution! The neglect, then, of such a cheap and certain provision, is gross improvidence; for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is against leaving them to suffer penurious misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this *Life Insurance of Mutual Benefit*, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this *Mutual Benefit Company*; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

Hyer's Pills.

The American Improved Hygienic Vegetable

medicine.

SAFE, CHEAP, AND EFFECTIVE.—This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, *wholly upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand more assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

The Good Things of the Season, FOR Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1 75 to \$2 12 per lb; shell-barks \$2 per bushel; peanuts \$1 63 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 28 cts; preserved ginger \$1 1/2 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionery cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement, merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor straps, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland fls, combs of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

JOHN T. STANHOPE.

Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they may at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

IF Rev. B. HUBBARD'S Vegetable and Anti-Bilious FAMILY PILLS are not found to be the most convenient, the best physic you ever tried, and fully equal to any recommendation of them,—You do not find that one of these pills does more good than from four to six of any other kind, every agent stands ready to receive the empty boxes and *refund the money*.

These Pills are recommended as being without an equal in all bilious attacks affections of the Liver, the Lungs, Stomach, or Bowels, caused by taking cold, or obstructed perspiration. They carry off the bile, cleanse the stomach and bowels, and re-open the closed pores of the body, thereby letting out the insensible perspiration through its accustomed channels, and relieving at once the internal organs. Also in old chronic affections, as Dyspepsia, Sick Headache, Rheumatism, &c.—Mind the Directions, which go with each box.

Every agent has circulars of these Pills to give away.

Half a Pill is the usual dose, though some require One Pill, or even more. Children of one year and over, one quarter of a pill, of 7 years and over, half a pill. These Pills are purely VEGETABLE, and may be taken under all circumstances, without regard to drinks or diet.
